

# Twisted Sister, Four Barrel Heart Of Love

Tires squealing, freewheeling  
Lines coming through the night  
Head's roaring disorderly  
Engine screams, everything is alright, well

CHORUS:

Four barrel heart of love (get ready, hold steady)  
Four barrel heart of love (get ready, hold steady)  
You're the one that I'm dreaming of  
You're my four barrel heart of love

Raw pounding, hot sounding  
Heart stopping and you bet you're alive  
Red lining, white lining  
Man and thunder in the powerdrive, well

REPEAT CHORUS

Let's ride

Solo - Jay Jay

Gas burning, head turning  
Riding hard like never before  
Earthshaking, lawbreaking  
Hammers down man to the floor, well

REPEAT CHORUS
