

Two Nice Girls, Only Today

(Pam Barger)

Meet me for a drink of coffee
Cup of coffee, cup of love
Meet me out to read the paper
At the counter and watch the people
Call me up and walk me down
Have a day for myself and you
We can walk the dog down to the graveyard
Soles of my shoes felt the souls of those lain here
Walking along, just me and you
I've had days and some were better
And some were worse and some just like today
Call me up and walk me down
Have a day all for myself and you
I've had days and some were better
And some were worse and some just like today
Tell me a story
You've never told to me before
A secret for my ears only
Only today
I've had days and some were better
And some were worse and some just like today
