

Two Tongues, Crawl

Wait, don't go with him
Slay the hole within
I crave your holiday
So take me far away

Leave me,
Let me stay asleep cause I don't care
I won't wait for you to believe our love is here

Know the parasites burn beneath the lights
For once, once in your life

Leave me,
Let me stay asleep cause I don't care
I won't wait for you to believe our love is here

(We're gonna be, it's alright)
(How could it be, it's alright)
(How could it be, it's alright)
(How could it be, it's alright)

You can crawl right into me,
In your bed when you just can't sleep
You can crawl right into me

Leave me,
(You can crawl right into me)
I can stay asleep cause I don't care
(In your bed when you just can't sleep)
I'm lonely,
(You can crawl right into me)
I do believe that love is here
