

TXT,

We lost the summer

Soccer cleats
Chatter and heat
(with you)
Eaephones that we shared in secret
(now just me)
Popular songs
Classroom concert
(but now)

We lost the sunset
Now don't know what to do

First day on my calander
Then countless more first days
Left alone on the evening
Of and endless 1st of March

My White Day's already wasted
Keep lovesick
No vaccine
Our clock lost the weather
Stuck in the winter

Cause we lost the summer
When we lost ech other
Give me back my season
Oh, it's all gone
Endless winter
Now i just miss ya
Give us back ourselves
Oh, it's all gone
we lost the summer
