

# Ty England, I Knew I Loved You

A corner table  
You breezed by  
I threw a glance  
And you caught my eye  
I've never seen your face before  
But I say the light for sure

I knew I loved you  
Right from the very beginning  
I knew I loved you  
And love would never ending

We danced together  
You held me tight  
Is still felt good  
Come morning light  
I knew it would last  
From that moment on  
First impressions are seldom wrong

I knew I loved you  
Right from the very beginning  
I knew I loved you  
And love would never ending

You looked at me  
And I looked at you  
I said the words  
And you said'em too  
Ooh my dreams come true

Now one thing's certain  
As time moves on some things change  
So don't you worry  
How the cards may fall  
You'll never need a crystal ball
