

# Ty England, Never Say Never

I was doing all right  
I was minding my business  
Thinking to myself  
What a great life this is  
Cruising through the country

Rockin' to the radio  
I was through with love  
All the fussing and fighting  
It didn't seem worth  
The thunder and lightning  
Made up my mind  
I was living my life alone

Just when my head was getting clearer  
Took a little glance in the rearview mirror  
Did a double take  
'Cause I couldn't believe my eyes  
She was right on my bumper  
In a drop top mustang  
Long hair flying  
Pulling in the fast lane

'Cause I couldn't let her pass me by

Well you never can say never  
When it comes right down to love  
Even if you say forever  
You won't ever ever get enough

Can't count the times  
I've been heart busted  
Threw up my hands thoroughly disgusted  
Swearing I was never  
Gonna take that fall again  
No sooner said then she turned the corner  
Suddenly I'm a born again goner  
Telling myself this one will never end

Well you never can say never  
When it comes right down to love  
Even if you say forever  
You won't ever ever get enough

You won't ever ever get enough
