

Tyga, Temperature

i know when you're outside
i could feel the temperature rise
i know when you're outside
i could feel the temperature rise
the temperature
the temperature
i could feel the temperature
the temperature

I pick you up in the Bentley truck
I'm outside
hit me up when you need some downtime
damn, girl, it's about time
off a 4, I want to see you around 5
now I'm 4:45, I'll be on my way
ya I'm on my way come outside
baby girl, you're never that mine
I lost my watch and I still found time
girl, you're hot and cold
that makes you warm
let your ex'men stay at storm
when you don't have to force it
it's a force
all I ever want is more

i know when you're outside
i could feel the temperature rise
i know when you're outside
i could feel the temperature rise
the temperature
the temperature
I say I could get you so high
you might die if you fall

and what's left in the love
if I gave you all the time, be patient
and when you need space
I give you a spaceship
take all the space you need
face your freedom with the face
you still be mine
before we lay we lie
I get you so wet
would you come clean, oh I

i know when you're outside
i could feel the temperature rise
i know when you're outside
i could feel the temperature rise
the temperature
the temperature
I say I could get you so high
you might die if you fall
