

Tyla, Only Girl I Ever Loved

Once upon a time in a bathroom
Unceremoniously curled up on the floor
Was a girl I used to know, finally at peace with it all
The dealer had changed suppliers
She'd even bought a brand new rig
She told me it was the last time
But then again she always did
The only girl I ever loved lives in heaven up above
The only girl I ever loved lives in heaven up above
Well she didn't come from this town
But then again not many of us do
We're just here just to make it big
But not many get through
The only girl I ever loved lives in heaven up above
The only girl I ever loved lives in heaven up above
And some of my friends they be junkies
But they're just trying to get through
They're either cutting down or getting off the stuff
But I can see right through
And some of them they seem to be immune
While others they just disappear
The wise ones they just grow up and get the f**k out of here
The only girl I ever loved lives in heaven up above
The only girl I ever loved lives in heaven up above
The only girl I ever loved lives in heaven up above
The only girl I ever loved lives in heaven up above
