

Tyler Collins, Girls Nite Out

Sick and tired
Of being left at home
While the boys go out
And leave us all alone, yeah
I wanna go out with my
Girlfriends and party all night
And this time you
Won't change my mind
I've got my mind made up
So don't wait up for me
It's the girls night out
N-n-night out and there's
Nothing you can say, baby
It's the girls night to play
Our night to play
So don't wait up for me
Na na na na na
You're stepping out and we're
Leaving all our troubles behind
Yeah, oh, yeah
I've got the girls and we've
Only got one thing on our mind
Whoa, whoa
The time is right
So are you ready to
Party all night
And this time
I'm leaving you behind
I've got my mind made up
So don't wait up for me
The time has come
For the boys to realize
That it's our turn
To have some fun
And it's gonna be tonight
It's the girls night out
The night out
There's nothing you can say, baby
It's the girls night to play
Our night to play
So don't wait up for me
Go, go, go...
Get up, get up...
Na na na na na...
The time has come
For the boys to realize
It's our turn to have some fun
And it's gonna be tonight
It's the girls night out
N-n-night out and there's
Nothing you can say, baby
It's the girls night to play
Our night to play
Don't wait up for me
It's the girls night out
The night out
There's nothing you can say, baby
It's the girls night to play
Our night to play
Don't wait up for me
Don't wait up for me
No, no, no, no...
