

Tyler Collins, Never Alone

Lay your head
Down to bed
Let your slumber sweep your cares away
In your dreams
Chase moonbeams
All the way across the Milky Way
And as you rest
In the nest
That we've made for you
We'll caress
And keep you blessed
Never alone for the whole night through
Go to sleep
Don't you weep
Tomorrow's gonna be
Tomorrow's gonna be
Tomorrow's gonna be a brand-new day
And as you rest
In the nest
That we've made for you
We'll caress
And keep you blessed
Never alone for the whole night through
Go to sleep
Don't you weep
Tomorrow's gonna be
Tomorrow's gonna be
Tomorrow's gonna be a brand-new day
