

# Tyler Hilton, Hard To Love

Oh, how this all was left I don't know  
I hadn't a chance to explain  
Maybe I mentioned the feelings of such  
Measure too much, for you baby

Well, I don't see reason  
In modest amounts  
By standard or metric  
There's no way to count

How by you  
You make it so hard to love  
Each day I find  
I've changed my mind  
On Love  
And to make it harder I've tried  
To change my mind, tonight

No, you won't need words like alone  
In confidence, well I know you care  
Well, out on this wire  
Help from your eyes  
You don't see mine  
But I know you're there

Well, answers to questions  
And money to save  
We can make a life together fine  
Just love me today

Baby, you  
You make it so hard to love  
Each day I find  
I've changed my mind  
On Love  
And to make it harder I've tried  
To change my mind, tonight

Yeah, answers to questions  
And money to save  
We can make a life together fine  
Just love me today

Baby, you  
You make it so hard to love  
Each day I find  
I've changed my mind  
On Love  
And to make it harder I've tried  
To change my mind, tonight
