

# Tyler Hilton, Our Time

There's a rule in the book that says  
It's got to be fun  
I hate to admit but my feelings have changed  
Everybody expects to hear a love song  
Love can't come from something baby that never was

And I'm leavin behind  
The you in my mind  
Though I know it's new  
It's something I'll try  
And I'll always remember  
The way that we cared for  
Our time, our time

There's a time and a place where thoughts are discovered  
A package of ten all the sheets that I need  
What I call a gift can't be given to many  
But loving a friend, baby, just ain't the same

Well I'm leavin behind  
The you in my mind  
Though I know it's new  
It's something I'll try

And I'll always remember  
The way that we cared for  
Our time, our time, our time

Sorrow hangs like a halo, baby on my head  
But regret will never fill my vacant heart, no

Well I'm leavin behind  
The you in my mind  
Though I know it's new  
It's something I'll try  
And I'll always remember  
The way that we cared for

I'm leavin behind  
The you in my mind  
Though I know it's new  
It's something I'll try  
And I'll always remember  
The way that we cared for  
Our time, our time
