

Tyler Hilton, Picture Perfect

The darkness finds I listen,
To every little thing she has to say,
And when I'm all but found it, darkness let them lead my way
And all she ever asked me to, do is...

Chorus:

Stay, Awake to see, A picture perfect moon she'll give me,
She ties a ribbon too,
And with the stars, she lets me know she'd playing
With the sun heat and always makes it hard
For her to see me

One day, me and darkness,
Will run away and sun will see
Should of let me take her in
The first place in...

Chorus:

Stay, Awake to see, A picture perfect moon she'll give me,
She ties a ribbon too,
And with the stars, she lets me know she's mine

And all I ever wanted,
Was for me and the moon to shine
And make the drakness...

Chorus:

Stay, Awake to see, A picture perfect moon she'll give me,
She ties a ribbon too,
And with the stars, she lets me know that...

Stay, Awake to see, A picture perfect moon she'll give me,
She ties a ribbon too,
And with the stars, she lets me know she's mine.
