

# Tyler Hilton, You'll Ask For Me

What was that about the ballroom dancing class I asked about  
It's all I've thought about cause you were saying  
We might get a chance to talk and talk might lead to dance  
And maybe dance might lead to dates and dates to aging

Hope you let your intuition  
Precede my reputation  
Cause I have one

Chorus  
I am what you see  
I am not what they say  
But if I turned out to be  
Could you love me anyway  
Standing anonymous  
Hoping your heart will just  
Wake up and ask for me by name  
Maybe someday you'll ask for me by name  
Just not today

Well, if this is love then it's hard to say  
With your notes and your books and your reaching away  
And I've confidence issues with your intentions

And I'm not hip to all your tricks  
With your algebra and your politics  
And the band has planned a hotel intervention

Don't you leave me by my lonesome to exceed my reputation  
Cause I have one

Chorus

I'm always here  
I've walked you home  
Then headed for my own  
Until again I'm need

Repeats Chorus
