

Tyler Kyte, Remind yourself

We're always on display
People question what we say
Seems like every move we make there's someone watching
Don't want to lose you to the crowd
So I turn the music loud
So we don't have to listen to them talking
You're scaring me
Cause you'd do anything
And it's tearing me apart
You hear your name in every song
You're happy when the spot lights on
You need so badly to belong
But don't forget to talk to me
Remind yourself to breathe
If it's all so bittersweet
If you're feeling incomplete
But your trust in me 'cause I believe you need me
Lose the face to show the world
And just try to be my girl
All the crazy stuff will mess you up completely
You're scaring me
Cause you'd do anything
And it's tearing me apart
You hear your name in every song
You're happy when the spot lights on
You need so badly to belong
But don't forget to talk to me
Remind yourself to breathe
We got to get it back
We got to get it back
We got to get it back
We got to get it back again
We got to get it back
We got to get it back again
You hear your name in every song
You're happy when the spot lights on
You need so badly to belong
But don't forget to talk to me
Remind yourself (remind yourself)
Remind yourself
Remind yourself to breathe
