

Tyrannosaurus Rex, Token Of My Love

With your stained glass look
Ahh.....

Well do you remember when we met
You stuck behind me like a stained glass net
And I'm broken
Is that a token of your love
Is that a token
A token of your love

Do you remember when we met
You moved behind me like a stained glass net
And I'm broken
Is that a token of your love
Is that a token
A token of your love

Everyday, every single day
My heart is broken,
Oh yeah
Everyday, every single day
Does this mean my love has been awoken **

*Repeat **Repeat *Repeat

Is that a token
A token of your love
