

# Tyrannosaurus Rex, Weilder Of Words

Wielder of words is steeped within traditional verbs  
and curiously a dented top hat  
discovered in the moonlit Laundromat

A busted cheroot is smoking on the heel of his boot  
His opera is torn thru' the haste of operatic oyster  
eating evenings of waste

Sleek astrakhan, reclining on a chippendale stand  
so sad they should be owning a man who's  
thicker than the forestry from where they began.
