

Tyrese, With me

You probably should of called it quits
After the last stupid thing I did
But you never gave up on me
And I'll be foolish if I let you go girl
I know that I be workin' nerves
And I don't always put you first
I been trippin' now I'm repentin'
Girl I promise I'm goin' change
People think we crazy
Cause they see you smile
Just me and you baby
That's just how we ridin'
I can't worry about what they say (no)
Cause it's all about you baby
But what've I've told you
(playin games over)
Better yet showed ya
(cause I know I owe ya)
For everytime that I didn't treat you right
You stayed by my side
It took a minute but I've finally found the one
All my homies tryna tell me that it couldn't be done
But you put up with me (you)
You put up with me
I know that I'm a lot of work and I ain't done my share girl
But you put up with me (girl you)
You put up with me
I know they be all in your face
Wishin' they can take my place
And on them days that we fight
I know the thought runs through your mind (that)
Somebody else will do you better
So why the hell are we together
But then we make up and then we right back
Like our ove is so good
People think we crazy
Cause they see us fightin'
Just me and you baby
That's just how we ridin'
Can't worry about what they say (no)
Cause it's all about you baby
But what've I've told you
(playin games over)
Better yet showed ya
(cause I know I owe ya)
For everytime that I didn't treat you right
You stayed by my side (babe yeah)
It took a minute but I've finally found the one
All my homies tryna tell me that it couldn't be done
But you put up with me (you)
You put up with me
I know that I'm a lot of work (I'm a piece of work)
And I ain't done my share girl
But you put up with me (girl because)
You put up with me
For all the times that (I) made you (cry)
And everytime I didn't have to but I told you (lies)
Is a ring worth enough care is tough
Take away the pain I caused ya
You've had every right to even snatch or stuck it out with me girl
Forgive me for the wrong I've done I told you baby your the one
It took a minute but I've finally found the one
All my homies tryna tell me that it couldn't be done
But you put up with me (you)

You put up with me
I know that I'm a lot of work and I ain't done
My share girl
But you put up with me (girl you)
You put up with me
You put up with me
You put up with me
You put up with me
You put up with me
You probably should of called it quits
After the last stupid thing I did
But you never gave up on me
