

# Tyrone Wells, No Good Without You

Talkin' all night while the radio  
Playing songs we love, we're dancing slow  
It's good to be with you  
Then two years later you were running late  
But I knew you were worth the wait  
So I held out to see you  
And day turned to night, I was still alright  
'cause I knew you'd be calling  
And days turned to weeks, love was springin' leaks  
Like rain it was falling

Chorus:

'Cause baby, it's no, no, no good without you  
Everything's wrong since you've gone away  
I tried to follow my dreams, but they're all about you  
So where can I go, when honey I know  
It's no good without you  
I said hey, hey, hey, baby

Saturday night I'm alone again, I'm losing my mind,  
Caving in 'cause baby I miss you  
Every thought, everywhere I go,  
every song on the stereo, is reminding me of you  
I played my guitar and was told to stop  
'cause your love is amazing, amazing, amazing  
'cause I got to move on 'cause your love is gone

(Chorus)

Everything fades from you  
All I see is you  
I'm barely breathing, always day dreaming  
All I see is you  
What I need is you

(Chorus)
