## U.D.O., Animal House

Morning is breaking with death on the street Driving downtown in a red corvette The daemons and satans are creeping around La nights are madhouse nights

The murderers - are heroes They're speeding all over the town And justice - is drunken I'm tumbling upside down

I'm a madman
Living in an animal house
I'm a madman
Living in an animal house
Living in an animal house

Rockers in concert are serving the bible Praying in public is getting a habit For selling out everything seems to be right, oh yeah The sunset is crowded with tramps passing out

They're sleeping - in trash cans There's witchcraft in everyone's eyes Satans and daemons All dressed up in suits and ties

I'm a madman Living in an animal house I'm a madman Living in an animal house Madman - going crazy - living in an animal house

I'm a madman...
