

# U.D.O., Black Widow

Black Widow

I just love my nightmares

I can't wait to sleep

Enjoying all my dreams

got no regrets

I can be a flash of lightning

Striking down on rocks

Burning down the law

Getting things I never got

Turning the world

Nothing unheard

One night can be more than a day

Just like a black widow

Like a black widow

I can't stand the dreamers

Scared of things that fly

They just have sweet fantasies

And fade and die

Nightmares- are so good, so good

And they always end just when they should

Nightmares are cool, nightmares are cruel

I love the fun and the thrill

Just like a black widow

Like a black widow

Black widow

Just like a black widow

Here comes the morning

And who can deny

Leaving the dream is so hard

I love my nightmares

I await their return

And this time, I'm dressed to kill, dressed to kill

Just like a black widow.....
