## U.K., Mental Medication

Mental medication Sweet music's conversation Play for all creation here Melody fair

Lost in contemplation Drown'd in meditation Need your inspiration near

When I'm alone I remember Truth is lasting

With the sun in your eyes And a simple disguise You fooled me Strange how your calling is clear

From the sound of your voice You don't give me no choice You move me Deep lies desire for your quick'ning fire

Well it's a hell of a ride When your courage inside Deserts you Clear though the calling may be...

In a terrible way
You continue to say
You need me
Show me the way through your dark red door
