

U.K., Nothing To Lose

Nothing to lose Now I can really break it
Nothing to lose Now I don't have to fake it
If you can't use Forget it then I don't need it
Nothing to lose If it ain't hot I'll leave it

Nothing to show but no-one to stop me I'm going away
I'm kicking my heels, rolling the wheels and I'm leaving today

Nothing to lose I gotta run for my life
Nothing to lose Shoot out and shine those search lights
Nothing to lose I'm ready to cross that border line
Nothing to lose I'm going to make it stick this time

Nothing to show but no-one to stop me I'm going away
I'm kicking my heels, rolling the wheels and I'm leaving today

Nothing to lose I gotta run for my life
Nothing to lose Shoot out and shine those search lights
Nothing to lose I'm ready to cross that border line
Nothing to lose I'm going to make it stick this time
Nothing to lose Now I can really break it
Nothing to lose Now I don't have to fake it
Nothing to lose Forget it then I don't need it
Nothing to lose If it ain't hot I will leave it
Nothing to lose I gotta run for my life
"(fade out)"
