U2, Inside Out

Late at night
When the motion beats down
I feel so low, oh no

I lived a lie
For a thousand years
We start to cower, oh no

I said oh no, baby don't
What you got to do it for
Can't go on

She says oh no, baby don't
Let me take me out here
Thank you man

You can think your so high
When the moon is way down low
Take your time, feel fine
Those ladies are so darn high
Oh no no no

You gamble inside out
Forever inside out
