

# U2, The Cry/Electric Co.

So many cry - so many cry - so many cry  
Somebody try - somebody try - somebody try something quick  
Don't you look back - don't you look back - don't you look back

So many cry - so many cry - somebody cry  
Well I can't see why or what for  
What for - what for

Why must I hide from myself, when I need a crowd?  
Bring on the crowd - I love the crowd

If you don't know - Electric Co
