

# UFO, The Way The Wild Wind Blows

I heard from Frankie there's trouble at his place  
On Highway 95 the police they gave me chase  
I was with his sister I hadn't seen a thing  
They had an APB just to bring me in

(1) Oh, I had Jenny by my side  
Oh, she never told me that she'd lied

(2) If that's the way (that) our love goes  
I'll take my chances with you I know  
And we'll go the way the wild wind blows

I wasn't gonna stop they'd have to catch me first  
And as I ran the red I heard the gunfire burst  
Across three counties chasin' me for days  
But Judge I didn't know that she was under age

(1) Repeat

[INSTRUMENTAL]

Well the judge he was generous and gave me a rest  
Of eighteen months in the county's best  
And I got a visit from Jenny yesterday  
By the time I'm out everything will be OK

(1) Repeat

(2) Repeat

She gave me one look  
You could see it in her eyes  
And we'll go the way the wild wind blows

(3) And while I'm away dream of dreams  
That what we had no one had seen  
Because we go the way the wild wind blows

(3) Repeat and fade
