UFO, The Way The Wild Wind Blows

I heard from Frankie there's trouble at his place On Highway 95 the police they gave me chase I was with his sister I hadn't seen a thing They had an APB just to bring me in

- (1) Oh, I had Jenny by my side Oh, she never told me that she'd lied
- (2) If that's the way (that) our love goes I'll take my chances with you I know And we'll go the way the wild wind blows

I wasn't gonna stop they'd have to catch me first And as I ran the red I heard the gunfire burst Across three counties chasin' me for days But Judge I didn't know that she was under age

(1) Repeat

[INSTRUMENTAL]

Well the judge he was generous and gave me a rest Of eighteen months in the county's best And I got a visit from Jenny yesterday By the time I'm out everything will be OK

- (1) Repeat
- (2) Repeat

She gave me one look You could see it in her eyes And we'll go the way the wild wind blows

- (3) And while I'm away dream of dreams That what we had no one had seen Because we go the way the wild wind blows
- (3) Repeat and fade
