Slippin in your silky skin can we do it once again what's your fantasy  
Your soft embrace your aftertaste we ain't got no time to waste tell me what you need  
Cause you can tie me up or tie me down on your bed or on the ground  
When we come up for air don't be scared I'll run my fingers through your hair  
This electric magnetic love thing experience  
Aaah aaah aaah  
Might drop you to your knees  
It won't do what you please

Baby when you hold me tight I just might make it through this night  
Well I can't be your father child but try and I might drive you wild  
I've been trapped inside your cherry tree  
Ever since you put your spell on me  
This electric magnetic love thing experience  
Aaah aaah aaah  
Might drop you to your knees  
It won't do what you please

Pull my trigger scratch my back cause when you do it just like that it makes me wanna scream  
I shiver when you shake my rattle I love it when I'm in your saddle it feels like a dream  
This electric magnetic love thing experience  
It's a love thing experience  
It's a love thing experience  
It's a love thing experience  
Aaah aaah aaah  
Might drop you to your knees  
It won't do what you please
