

Ugress, Nightingale

I take my night cap on
I leave it up to you
Im feeling kind of strange
You know what you what you have to do
Rescue me this time
And try to understand
Try to look away
From the voice in you
You know you think too much

So you could you please take me
Into the taxi
To the end of the city hall
And could please read me a
Bedtime story
The one about
The nightingale

This is a tiny town
The lights are always on
No way we can escape
No place to run and hide
But theres no reason to
Cause they are all the same

We are in the middle sea
The tunnel inbetween
Decide to fade away

So you could you please take me
Into the taxi
To the end of the city hall
And could please read me a
Bedtime story
The one about
The nightingale
