

# Ultima Thule, The Old One Knows

Sadly we stand here and look at this dying church  
The old man knows he's heaven, we can only search  
The child beside him asking - will you help me now?

REF

The child beside him asking - will you help me now?  
She say - please help me now!  
But he stands unable

Signs already flashing, the future is shown  
But on this path of terror the old one to us come  
He stands alone and watching, if you believe he knows

He stands alone and watching, if you believe he knows  
He say - give me your faith  
And I'll give you my freedom

Sooner then tomorrow, we'll free the quake of wrath  
Time will not be given for him to chose our path  
This is just me singing for future and hope

This is just me singing for future and hope  
I say - please help me now!  
This is my dream
