

Ultimate Fakebook, Before You Leave

Should've seen it through
I wouldn't even
Know if I was right
'Cause you conceal it
And you do it every night, you do it Will you live your life alone
Before you leave
I will try to take you home, if I can So you're dreamin' of a rainbow
At the end but don't you know
This disease is so much funner
With your friends, with your friends Will you live your life alone
Before you leave
I will try to take you home

Before you leave I need to know
You won't give in
Until you know that you don't want it Before you leave I need to know
You'll rock my love
Before you leave I need to know
You want it
Terror seasons aren't that wicked
In the end and don't you know
Better reasons than to
Pick apart your head, pick your head Will you live your life alone
Before you leave
I will try to take you home
