

# Ultimate Fakebook, Far, Far Away

Isn't it funny, to live for someone else's script  
You spend a lot of money to catch that lift  
And isn't it good too, to not always get all that you want  
But we'll be singing 'boo hoo hoo' if great it's not

Cause everybody wants it so much better  
than anyone could ever let it be  
I guess I should get off it or whatever  
but please comfort me...

George Lucas, is the Force with us?  
Will it save us from heartbreak in 1998?

Demons with the cat claws threaten us with their fake grace  
But angels without wings can't take their place  
And if it's just a smart bomb in a theater far, far away  
Well, we'll be singing 'woo hoo hoo, oh man that's great!'

Cause I never thought that this could happen,  
that I could ever feel this way again  
I know it's kinda dumb but it doesn't matter,  
I can't hold it in

George Lucas, is the Force with us?  
Will it save us from heartbreak in 1998?  
George Lucas, don't lose your focus  
cause the theaters will be full  
come what may (4x)
