

# Ultimate Fakebook, Tell Me What You Want

A night in June, I'm crawlin' out from a silk cocoon  
I hit the town, put on my shoes - 'cause Friday night I  
fall in love  
She comes into view, from out of nowhere, a girl so  
cool  
She makes me sick of my excuses, now I gotta see this  
through

## PRE CHORUS

Does she see me...can she hear me...what I'm thinking  
to say to her?

## CHORUS

Tell me what you want - I'll be it, darling it's  
Anything you want - look no more  
Just let me stay the night, I'll sleep on the floor  
Tell me what you see - I'll see it even if  
It's invisible to everyone  
I think you know that I can see you girl,  
so don't fight it, love

Just bouncin' through, the dancefloor's beaming with  
kangaroos  
It's been so long since I felt good, that know I  
don't know what to do  
She's got the moves, butterscotch hair splashes her  
perfume  
and when she smiles it's X-ray, definitely cuts  
through a crowded room

## PRE CHORUS - CHORUS

And I wish I could  
And I wish I would  
Everytime I think I, I think should  
I feel I'm no good

## CHORUS
