Tryna forget about it  
Ordinary things  
Typical  
Predictable  
Baby I knew the end before we started

You got me feeling like I owe you something  
Cos you were there in times when I had nothing  
But you threw it all away  
With the shady things you do

Baby please forgive me  
For what I'm bout say  
And what I'm bout to do  
I can't take no more  
I know you aint bein true  
Aint got no love for you

You've been cheating and telling me lies  
You've been creeping while I'm sleepin at night  
Youve been chasing every girl in sight  
You've been messin round and no I'm down, It's over now  
You've been cheating and telling me lies  
You've been creeping while I'm sleepin at night  
Youve been chasing every girl in sight  
You've been messin round and no I'm down, It's over now  
You've been cheating and telling me lies  
You've been creeping while I'm sleepin at night  
Youve been chasing every girl in sight  
You've been messin round and no I'm down, It's over now

I aint owned by intuition  
And blessed heart failed our suspision  
But you were just the one who was puttin it in my face  
Can't deny i'd let you hurt me

Baby please forgive me  
For what Im bout ot say  
And what Im bout to do  
I cant take no more  
I know you aint bein true  
Aint got no love for you

You've been cheating and telling me lies  
You've been creeping while I'm sleepin at night
