

# Ultrabeat, Feel It With Me

I lay here by your side  
the moon and stars are out tonight  
And in the distance music starts to play

You wake up from your sleep  
I take your hand to the hope to be  
And in the chance the sound takes you away

Come here beside me  
A little closer  
Don't run away from the passion that you know

Come here beside me  
A little closer yeah  
Feel it with me

Day by day  
I said hour by hour  
You make it a little closer

Day by day  
I said hour by hour  
I make you feel it with me

I lay here by your side  
the moon and stars are out tonight  
And in the distance music starts to play

You wake up from your sleep  
I take your hand to the hope to be  
And in the chance the sound takes you away

Come here beside me  
A little closer  
Don't run away from the passion that you know

Come here beside me  
A little closer yeah  
Feel it with me

Day by day  
I said hour by hour  
You make it a little closer

Day by day  
I said hour by hour  
I make you feel it with me
