

Ultramagnetic MC's, Bring It Down To Earth

(Ed Lover)

Ultramagnetic MC's

I remember the first time I ever seen Ultramagnetic, at Latin Quarter

(Kool Keith)

Yeah!

It's time to come out and give the people somethin they can UNDERSTAND

Somethin not too complicated (cated)

You know what we gon' do?

We gon' bring it down to Earth (Earth)

Chorus: repeat 4X

BRING IT DOWN TO EARTH, I DON'T UNDERSTAND!!!

(Kool Keith)

Megabomb ignite, super reflection

Power ignites the Fourth Horseman, turbo (hee hee hee hee)

I kick styles like Data, computer reading

Miles away to beam Star Trek

Movin my style up, Optimus level 4

I get it warp speed, youse on my space tour

Get with the elements, eloquent spacecraft

Change my gamma flow, one-three-eight-seven

Twenty-oh-nine-six, cereal silver seven

I got the skills to rap, so what you want Spock?

Style like Captain Kirk, gamma ray one block

Particle leading out, rock the way intercourse

Damaging animals, a lady with menopause

Rising at one speed, altitude X be..

We need some gas or fuel, YO COME IN MAJOR!

I'm just a level or pinch, I'm hittin New York

Flyin with Ced, I see the other world

I need some gas, yo Jim, I gotta come down

Perimeter's reading we might crash!!

Chorus

(Kool Keith)

I know you out there and y'all understand

But I'ma let Ced get on and tell y'all what it's really like

It's not so complicated

but CONNECT WITH ME and y'all follow me right on through!

(Ced Gee)

Yo

Ultra power flowin, get ready for Centron

React with the digital, kicks like loose bombs

High tech C-spects, hit data brain checks

Soundin like John ?, time's up brain TEST

Info storm, locked like sentry

Buzz buzz buzz, it's annoying

So pick up kicks and, flex with the mega mega

Square roots on time, so check check check check

And go as I ignite, the energy will unite

FAKE ATTACKS FOR ME, hard as I get hype

T-Minus 7 counts, divided by kilograms

Input outputs, the figure is fluid

But some plug sensors, replace it with bass

It's kickin up fiercely, boomin with heat

While you sneakin with energy, sound heat sneaks

The chamber the membrane, delerious insane

Now think about it, hmmm.. I know it's crazy

With moisture one, and texture seven

The panel's on fire, interference is higher
Delay is in, device is on
Spinnin that plate, proceed this quick
Some bomb it and quit, then give up on life
They just can't handle, the rays of light
They tryin to see, they move the barriers
They catch the enzymes, becomin a carrier
They stop they breathin, they hold they breath
Pass out and soon, then they forget

Chorus 2X
