

Ultraspank, Where

There
Somewhere out there is a better day
Somewhere out there has to be
better than today hopes to be
Anyway

To be a part of anything
Shows me what i've missed
To be a part of all the answers...
my wish.

Stand there before me
With your emptiness, emptiness
So true to form
So true to all i've missed from you

To be a part of anything
Shows me what i've missed
To be a part of all the answers....
my wish.

I've run from you before
and closed this door

To be a part of anything
Shows me what i've missed
To be a part of all the answers...
my wish.

I'll miss you anyway...
and i'll... miss you anyway.
