

Ultravox, Dangerous Rhythm

Chorus:

Dangerous rhythm

Dangerous rhythm

Dangerous rhythm in the air

Stranger to stranger

We're both dressed for danger

Something is generating here

Oh, take off your halo

For the all-night inferno

Something is happening in the air

It's not like anything I've ever known before

And I don't care

(Chorus)

Surging and merging

Urgent and urging

Soft as a footstep on the stair

The red light is on now

My gravity's gone and how

I can feel something in the air

It's not like anything I've ever known before

And I don't care

(Repeat chorus twice and fade)
