Ultravox, When You Walk Through Me

It's warm tonight
It rained tonight
The windows are all open wide
Can't see the clock to check the time
Nothing is moving
When you walk through me
I turn around
To switch the scene
The room dives like a submarine
I cross the carpet trying to leave
Sometimes I can do it
When you walk through me
Chorus:
When you walk through me
I almost lose me
It's so confusing
When you walk through me
When you walk through me
Locations change
The angles change
Even the streets get rearranged
While I'm swimming out
Someone waves across a ??? room
I take the train
Or shine a shoe
A dark horizon comes to view
I get lost in the crossword clues
Or check the time again
(Chorus)
It's warm tonight
It rained tonight
The windows are all open wide
Can't see the clock to check the time
Nothing is moving
When you walk through me
(Chorus)
