

Unbekannt, A Love Like This

You light my life when you're with me
you're like a sunrise deep down in the night
For you can touch my heart within quality
I'm in paradise, must be in paradise

Have you ever had a love like this
it's so heavenly when we kiss
Have you ever had a love like this
such a feeling that you have missed
We are two in a million, we are two in a million

You need no strings to bind my hands
for you have chained my heart so close to you
I pray that our love will last for all my life
'til the end of time, until the end of time

Have you ever had a love like this (4x)
