

Unbelievable Truth, Let It Flow

Give it time
it takes time,
it'll all come together
Let it flow through you
Let it flow
You know you can't force it.
Nobody's counting the days
Nobody's lying in wait
You're so lucky, man,
I hope you know
There's a light a light shining on you
Give 'em gold and it
turns to stone
and you don't want to listen
The chains turn the wheel my friend
the idiots make the deals
the days are slipping by my friend
You may as well let it flow
Give it time
maybe given time
There'll be good things to look back on
when nostalgia strikes
you'll be surprised
that a part of you enjoyed it
The chains were always turning the wheels
The monsters were part of the deal
The days are slipping by my friend
So let it flow
the chains turn the wheel my friend
the idiots make the deals
the days are slipping by my friend
time is running out
the monkeys type
the days are slipping by my friend
you may as well let it flow
