## UnchainD, Stand Together

music by Vincent Bocchini lyrics by Vincent Bocchini

Lets wake in the morning spend some time to pray And head out into the day People past us by who need the truth Or just wandering through What do we say what do we do

(Chorus)

If we stand in the Light we shine for Him We shine in the light we stand for Him If we stand today we shine forever Lets shine today lets stand together

Someones watching is it a friend Or a neighbor who's looking What are they seeing as they're walking along Is our witness strong

What will they say what will thay do

(Chorus)

Dont you know that we are in service for Him So lets show our heart that He is in that He is in What will they say what will thay do

(Chorus)
