## Uncle, Bloodstain

They say if you took it all away
This love would fall apart
I say, no way
You don't know the size of my heart.

Vicious, suspicious It doesn't matter what I say Users and losers There's nothing here to make me stay.

Bloodstain on a blue vein Take it with no shame Love tracks on a loose train Bloodstain

No gain with no pain My scars are deeper than you think Tie me, try me One more time before I sink.

Big lies, big times This love is not what we're about It's too late, and I'm too straight

It's time to blow this fire out.

Bloodstain on a blue vein Take it with no shame Love tracks on a loose train Bloodstain on a blue vein

Take me softly I'm going crazy for your touch.

Bloodstain on a blue vein (Blue....blood, blue...blood, blue...blood) Take it with no shame (No...take, no...take, no...take)

I'm alone And dissatisfied And someone else is alone And dissatisfied

You are alone?
