

Uncle Kracker, Don't Know How(Not To Love U)

i learn to live alone and move on with my life. theres a million things that i can do that i can pride my time. i can wake each morning i can go about my day i can bumble through my words until i find a few to say. but the hardest thing i had to do scince we been apart is learning how to deal with all this pain inside my heart.

chorus

cuz i dont know how dont know how dont know how not to love u
dont know how dont know how dony know how not to love u.

i can work all day and i can hang out everynight i can do the wrong things and pretend that they're all right. i can make believe that everything is cool and put all the things that covers a life of a fool

chorus

u said that time would lease the pain but i still give voice whisper my name scince u been gone my worlds been still u said i'd forget but i never will.

chorus

i can write a song and make the whole world laugh and cry. i can use some words to paint a picture to put inside ur mind. i can use my hands to whipe the dust off this guitar. and let the music that i'm playing take my mind off my heart.

chorus

u said that time would lease the pain but i still give voice whisper my name. scince u been gone my worlds been still u said i'd forget but i never will.

chorus 2 times
