

Uncle Tupelo, I Got Drunk

Well I took a fifth, and I poured me a shot
And I thought about all the things that I haven't got
And I drank that down, and I poured me some more
Kept drinking and pouring till I felt the floor

I got drunk and I fell down
I got drunk and I fell down

Another slow day in this damn town
Keep asking yourself "why am I still hangin' around?"
You spend half your time just staring into a beer
What you need, you know, you can't find here

I got drunk and I fell down
I got drunk and I fell down

Well I took a fifth, and I poured me a shot
And I thought about all the things that I haven't got
And I drank that down, and I poured me some more
Kept drinking and pouring till I felt the floor

I got drunk and I fell down
I got drunk and I fell down

I got drunk and I fell down
I got drunk and I fell down
