

Uncle Tupelo, Weve Been Had

some folks find that their role in life is to fail at everything they try while other folks see but not like me
there's one thing that they're damn good at
gather around you all
come around and see
those who stand tall
why don't you please watch me fall
the hole it is wide and it's there to divide it's no one's fault, it's put there by design and there's a bridge
gather around you all
come around and see
those who stand tall
why don't you please watch me fall
