

# Uncle Tupelo, Weve Been Had

some folks find that their role in life is to fail at everything they try while other folks see but not like me  
there's one thing that they're damn good at  
gather around you all  
come around and see  
those who stand tall  
why don't you please watch me fall  
the hole it is wide and it's there to divide it's no one's fault, it's put there by design and there's a bridge  
gather around you all  
come around and see  
those who stand tall  
why don't you please watch me fall
