This is your love...

Hey I know maybe sometimes you feel lonely
Gotta hold on gotta have some faith in me
Gonna get you by my side get with me tonight

There's no one on this earth that knows love so deeply
A thousand light years in between us, but they'll see
We gotta live so deep, so big I'll satisfy

I wanna give you light
Looking through your eyes
It feels so right
Looking through your eyes
You get me right
Gotta realize
I breathe my life
Looking through your eyes

I wanna give you light
Looking through your eyes
It feels so right
Looking through your eyes

You get me right
Gotta realize
I breathe my life
Looking through your eyes
Looking through your eyes

I can feel the heat when love's surrounding me
From the first time cosmic love met totally
Gotta hold on baby get with me tonight

Let the sun in and the stars go guide you and me
Getting right into the heart of destiny
We can leave this world behind and say goodbye

I wanna give you light
Looking through your eyes
It feels so right
Looking through your eyes

You get me right
Gotta realize
I breathe my life
Looking through your eyes

I wanna give you light
Looking through your eyes
It feels so right
Looking through your eyes
You get me right
Gotta realize
I breathe my life
Looking through your eyes
Looking through your eyes
Looking through your eyes
Looking through your eyes
Looking through your eyes
