Undead, My Kinda Town

(Steele)

I'm lost in a twilight zone
Ain't got no mind of my own
I took some kind of pill
Now I can't get my fill
I see the junkies and I see the whores
I don't know why but it all seems a bore
They don't give me no thrill
It turns my stomach, I'm getting ill
New York City! You're my kinda town
My kinda people just hangin' around
New York City! You're my kinda town
My kinda people just hangin' around
My mom and dad wanna lock me away
Don't give a f**k, they got nothin' to say
I'm gonna do it anyway
You wanna play? Yeah, I wanna play
New York City! You're my kinda town
My kinda people just hangin' around
New York City! You're my kinda town
My kinda people just hangin' around
I'm lost in a twilight zone
Ain't got no mind of my own
I took some kind of pill
Now I can't get my fill
New York City! You're my kinda town
My kinda people just hangin' around
New York City! You're my kinda town
My kinda people just hangin' around
New York City! New York City! New York City!
