Under The Influence of Giants, I Love You

Its a shame that your gone Losing sleep when I'm keep rolling To your song Wonder how I appear in your head When I keep rolling, rolling on

I meant to say that I Love You I meant to say that I Do Yea I meant to say that I Love You

When I can't disappear from your face Cause it's a sure shy, ooh I'm a man who admits Thats Its hard to be alone And missing you Missing you Missing you

I meant to say that I Love You I meant to say that I Do yea I meant to say that I Love You

Go go and cry

I meant to say that I Love You I meant to say that I Do Yea I meant to say that I Love You I meant to say that I Do I meant to say that I Love You I meant to say that I Love You
